

BD40027

Lube Spin-on

NEW RELEASE

John Deere construction and agriculture equipment can experience heavy workloads and extremely contaminated conditions.

The Baldwin BD40027 lube filter has been designed with these conditions in mind. It is extremely efficient at both removing and holding large amounts of contaminant, achieving the high oil cleanliness levels required to achieve rated part life and prevent premature wear.

Baldwin lube filters are designed to meet or exceed OE performance levels, giving your equipment the protection it needs over the entire OE recommended service interval.

APPLICATIONS

John Deere Dozers, Harvesters, Loaders, Tractors

CROSS-REFERENCE

John Deere RE561823;
Hifi/Jura Filtration SO10014, SO10094;
Mann & Hummel W11011;
SF-Filter SP5165
